SEAM CROSS SECTION

NAIL-STRIP NS10 & NS15 (continued)

STANDARD PRODUCT OFFERING

24 ga. Steel and .032 Aluminum:

<u>MODEL NO.</u>	<u>SEAM ON-CENTER</u>
NS1012	11 5/8"
NS1018	18"
NS1511	10 5/8"
NS1518	18"

PRODUCT: NAIL-STRIP NS10 & NS15 is a structural panel which is snapped together during installation. The product is an integral interlocking system by design meaning the panels install in one direction from a given starting point. NAIL-STRIP is a very flexible panel design which works well with a wide range of building designs. Clips are not required.

NOTE: Continuous lengths up to 40'-0" is standard. Contact DMI for details.

NAIL-STRIP is not eligible for a watertight warranty.

.032 aluminum is not stocked in all colors. Minimum order quantities and extended lead times may accompany panel orders when utilizing these substrates

Oil-canning, the slight waviness inherent with light gauge metal, does not affect the finish or structural integrity of the panel and is therefore not cause for rejection.

ROOF ASSEMBLIES: NAIL-STRIP NS10 & NS15 is designed for application over solid substrates, plywood or metal decking roof assemblies. Utilizing a fastener every 20" o.c., min.

PRODUCT USES AND APPLICATIONS: Product uses include min 4:12 sloped roofing, vertical fascia, equipment screens, mansards, and wall panels.

ADVANTAGES:

1. Engineered Snap-Together Design: easy installation
2. Symmetrical Visual Aesthetics: providing a non-directional appearance
3. Continuous Interlocking Seam: no seam disengagement
4. Anti-Siphoning Seam Design: prevents water infiltration
5. Continuous Rollformed Lengths: eliminates need for panel lap joints
6. No clips required.

DIMENSIONAL METALS, INC.

DMI has specialized in the manufacturing of Architectural Metal Panel Systems and Fabricated Architectural Sheet Metal for the construction industry for over 17 years. We use the most technologically advanced Fixed Base Roll-Forming Equipment with in house quality control so that we can offer the highest product quality available.

Please contact our Engineering Department today for technical assistance.
